532 (D)	Elon Musk Tweet: Does you know output voltage & amperage of those generator trucks? 3 phase? What frequency? Will need high voltage transformer to carry power over distance or very thick cable. Beyond that, only batteries will work. Will prep Powerwalls in case needed.			
533 (D)	Elon Musk Tweet: Looks like 1st bit of water is close enough to entrance to be pumped out. 2nd & 3rd would need battery packs, air pumps & tubes. If depth of 2nd is accurate, would need ~0.5 bar tube pressure. Prob need to enter tube, zip up & then transit.	P: • Hearsay

604 (D)	Elon Musk Tweet: Yes. Caves are now filled with water again. Difficulty of passage is massively dependent on water level.
